## **GENERAL INFORMATION**

### **The History of Tyler Junior College**

The Tyler Junior College was established in 1926 through the efforts of many of Tyler's leading citizens who saw the need for an institution of standard collegiate rank in Tyler.

The year 1943-44 will be the eighteenth year of the college and many of those who participated in its founding still maintain their active interest in it. Each year has seen improvements in physical plant, faculty and achievement. Hundreds of young men and women have attended the college because of its high standards, its convenience, and the economy of remaining at home while doing college work. The college has saved them, the City of Tyler, and the State of Texas thousands of dollars.

### **The Purpose of the College**

The course of study is intended to meet the needs of students who expect to take four years of college work, of those who expect to enter professional schools, and those who expect to enter their life's work after completing two years in college. The ultimate aim is to prepare for good citizenship.

### **Accrediting of the College**

The Tyler Junior College is a member of the Association of Colleges and Secondary Schools for the Southern States, the Texas Association of Colleges, the American Association of Junior Colleges, the Southern Association of Junior Colleges, and the Texas Association of Junior Colleges.

Membership in these associations makes possible the transfer of credit for work done in Tyler Junior College to other colleges and universities.

### **Transfer to Other Institutions**

Since senior colleges differ in their curricula, a student should secure the catalogue of the institution to which he intends to transfer credit. Although credit is transferable from Tyler Junior College to senior colleges and universities, the student should plan his courses for his first two years to meet the requirements of the senior institution.

## **Library**

An excellent reference library consisting of more than 7500 volumes is housed in the new wing of the college building, where a beautiful reading room, furnished with standard equipment, is available for student use. Standard magazines and periodicals are also contained in the collection.

## **The Mattie L. Jones Scholarship and Loan Funds**

These student aids have been established by the Board of Education and members of the teaching staff in honor of Miss Mattie L. Jones and in recognition of the long and distinguished service which she has rendered the Tyler Public Schools and the Tyler Junior College.

The Board of Education has granted two full workships known as the Mattie L. Jones Scholarships, covering tuition for a period of one year, to be awarded by the Committee on Scholarships and Awards to two students annually.

Teachers and employees of the Tyler Public Schools and the Junior College have established the Mattie L. Jones Loan Fund from which additional aid is rendered students as a tribute to Miss Jones.

## **Honor Graduate Scholarship**

The highest honor graduate of any affiliated high school will be given a scholarship covering his tuition. This scholarship must be used within one year from the date of graduation.

## **Benefactions**

In the United States, most, if not all, institutions of higher learning have been the recipients of benefactions which have provided for growth and advancement. During its short life of seventeen years, Tyler Junior College, in spite of the depression and World War II, has shown both growth and progress. Many citizens, as well as the alumni who now number more than three thousand, have made definite manifestations of their interest in the Tyler Junior College. Among the generous benefactions are the following:

The Carnegie Corporation of New York made a grant of \$3000 to the library on the basis of its merit. Among other valuable gifts made to the library are those that have been

made by Honorable T. N. Jones, Mrs. Elizabeth Herndon Potter, the family of the late A. Golenternek, Miss Ann Kayser, Israel Smith, Mrs. Irvin Pope, Sr., and Mr. Hampson Gary of New York City.

Mr. and Mrs. R. W. Fair, in appreciation of the standard of work done by the college, have fully endowed a professorship in the English department.

### Classification of Students

Students are classified as regular, special, and terminal. Regular students are those taking at least twelve semester hours of work. Special students are those taking fewer than twelve hours. Terminal students are those taking courses which do not carry transferable credits.

### Student Load

Except by special permission from the Registrar or Dean, a student will not be permitted to register for fewer than four or more than five courses.

### Tuition and Fees

Tuition rates in Tyler Junior College are low, since the college is partially supported by the State of Texas. The tuition and fees are as shown below. Monthly payments may be arranged by those who desire to do so.

Tuition rates and fees per semester are as follows:

	Tuition	Activity
For four or more subjects	\$45.00	\$2.50
For three subjects	\$35.00	\$2.00
For two subjects	\$25.00	
For one subject	\$13.50	

### Aviation Ground School Courses

One subject	\$ 7.50
Two or three subjects	\$15.00
All subjects	\$38.00

When tuition and fees are paid in installments, the following carrying charges are added:

	Carrying Charge
For four or more subjects	\$2.00
For three subjects	\$1.00

The student activity fees enable the student to attend all regular college athletic contests, social affairs and dra-

matic and literary productions without further admission charge. Funds derived from this source are also used to defray expenses to inter-collegiate meets.

In addition to the above the following fees are paid by students enrolled in the indicated courses:

Science (Chemistry, Physics, Biology)

Laboratory Fee, per semester-----\$2.50

Typewriting, per semester-----\$2.00

A cap and gown fee of one dollar and a diploma fee of seventy-five cents are paid by students at the time of graduation.

Tuition and fees are non-returnable except by special action of the Board of Education.

### Attendance

Regular class attendance is fundamental for the success of the student; therefore a student must report promptly and regularly to all classes.

### Reports to Parents

At the close of the first four weeks of each semester, a definite report on students who are failing is made to the Registrar, who notifies the parents of the failing student.

### Activities

The Tyler Junior College provides various types of student activities which furnish training in leadership, afford opportunities for diversion, and serve as a means of development of the student. Each student is encouraged to take part in one or more. Among these activities are the following:

The Engineer's Club is composed of students interested in all fields of engineering. Various field trips help to enlighten and give the future possibilities of the different branches of the engineering profession.

Debate and Other Speech Activities. Students who are interested in working with debate belong to the Debate Club. The chief work of the club is research and actual debating on the current debate topic of the Texas Junior College Speech Association. The Junior College also sponsors entries in Oratory, Extemporaneous Speech, Poetry Reading. These contestants and members of the Debate Squad usually attend speech tournaments at other colleges.

**Radio.** Each Thursday night the students interested in radio speech present the Tyler Junior College radio program over Station KGKB.

**Las Mascaras Dramatic Club.** Las Mascaras fosters an interest in all phases of dramatic art. Meetings are held semi-monthly, including several social meetings each year. Any student in Junior College who is interested in dramatics is eligible for membership. Las Mascaras sponsors two major productions each year and also an entry in the one act play contest of the Texas Junior College Speech Association.

**The Girl's Forum**, an auxiliary of the Tyler Woman's Forum, is an organization open to all girls of Tyler High School and the College. It is under student management with faculty advisers. The purpose of the organization is to furnish recreation and to bring the high school girls into association with college students.

**In Athletics**, the College arranges schedules of games and contests in basketball, tennis, track, golf, and baseball. The rules of the Texas Junior College Conference are followed in participation in athletic contests.

**Phi Theta Kappa** is composed of members selected on the basis of scholarship, character, leadership, and service. Its membership is restricted to ten per cent of the students enrolled in the Tyler Junior College, and the faculty and local chapter name as members those students meriting special honor.

**The Apache Pow-Wow**, the official college newspaper, is prepared and managed by a student staff under the direction of faculty sponsors. Students act as reporters, editors and business managers of this publication. The paper is furnished free to students.

#### **Honor Roll**

To promote high standards of scholarship, the College has established an honor roll. Ten honor points are necessary for eligibility. The grade of A carries three honor points; the grade of B, two; and the grade of C, one.

#### **Requirements for Admission**

Students will avoid delay in registering by sending their entrance credits at least two weeks before the date of registration.

All students are required to present evidence of successful vaccination against smallpox before they are permitted to enter the College.

For Admission Without Condition

For full admission, graduation from a standard high school with at least fifteen units of high school credit, including three units in English, is required. The elective units must be chosen from the list approved by the State Department of Education.

Admission by Examination

Students who are not graduates of a high school may absolve the deficiency by taking examinations. Students under twenty-one years of age must complete entrance examinations prior to or at the time of admission.

These examinations may be taken with the classes of Tyler High School at the close of the semester prior to entrance; or they may be taken under the direction of the State Department of Education at approved places in May.

Admission by Individual Approval

Persons over twenty-one years of age, may at the discretion of the College, be admitted without examination to any of the classes below the sophomore level. Special consideration will be given to mature students whose training has been followed by successful experience in teaching, to students who have had other practical preparation, and to those who have made special attainments in practical lines. Students admitted in this manner must satisfy the entrance requirements before graduation.

Students admitted by individual approval to freshman English, will, on completing that course, be given credit also for three admission units in English. Similarly, students admitted to freshman mathematics, will, on completing that course receive credit also for two admission credits in algebra and one in plane geometry. Upon the completion of thirty semester hours of college work with an average grade of C, students will be given, in addition to the above six units, five additional unspecified units. The remaining four units must be made up by examination or by cancellation of college work in lieu of entrance units. Six semester hours of college credit count as one and one-half entrance units.

## **Requirements for Graduation**

For graduation students must complete sixty semester hours of work with an average grade of at least C. The sixty semester hours must include twelve hours in English, three in government, and at least fifteen hours of sophomore rank.

Students transferring from other colleges must satisfy the requirements for admission and must complete at least one semester of work in the Tyler Junior College to receive a diploma.

Graduating students are required to attend the commencement exercises unless excused for good reason by the Dean of the College.

## **Proficiency Certificates**

Students who complete a terminal course and reach the required proficiency are granted a "Certificate of Proficiency" in the field covered.

## **Explanation of Hours, Courses and Numbering**

One semester hour represents one class hour per week for four and a half months; in other words, one course meeting three times a week for nine months would secure credit of six semester hours.

Courses are numbered as follows: The first digit of the number indicates the college year in which the course is taken; the second digit in the number indicates the semester of the college year in which the course is taken; the final digit indicates the credit value of the course in semester hours; thus, English 123 indicates that the course is the first year, second semester English with a credit value of three semester hours.

## **Prerequisite Courses**

The description of each course is followed by a specification of prerequisite courses, if any. If no prerequisite is mentioned, there is none. No student may enter a course unless he has had the prerequisites. An exception to this rule may be made only by special permission of the Dean and the head of the department concerned.

## **Withdrawal of Courses**

A course may be withdrawn unless it is elected by a suf-

ficient number of students. In general, a course will not be given for fewer than five students.

### Dropping Courses

No student may withdraw from any course he has entered except by permission of the Dean or Registrar. A student dropping a course without permission will be given F on the course.

### Reports of Grades

Reports of students' grades and standing are issued every nine weeks. Complete reports are given at the end of each semester. Written notices will be mailed to parents of students who are failing in their courses.

### Grades

A—excellent; B—good; C—fair; D—passing; E—conditional; F—failure. A student making E will be permitted to remove the condition by a second examination within a semester.

# GENERAL ACADEMIC COURSES

---

## ADULT EDUCATION—Day and Night Classes

---

In 1942-43 more than one hundred fifty adults, who have been out of school for some years, enrolled for one or more courses in the college. Many are enrolled in regular academic courses, such as Spanish, English, and Government, while others are enrolled for terminal work such as typewriting, meterology, and navigation.

In order to accommodate these students classes are arranged at any time convenient for them. A regular schedule of night classes has been arranged meeting Monday Tuesday, Wednesday and Thursday from 7:00 p. m. until 9:45 p. m. Others meet at 4:00 p. m.

An adult interested is invited to call the Registrar for further information.
